Worldwide Changes in Consciousness 7/16/83

Key Points

Money is becoming valueless. In the times ahead we are being forced to think in new and better ways about solutions.

We need to recognize that every country has something that we can learn from and that we are all brothers.

It's common for people not to want to help others. They think 'I need to get rid of my suffering before I'll be able to do good things for others,' and so people become more selfish and suffer all the more. It goes on and on until reaching the point where everything goes wrong.

Learn to have an inner life. Fill your heart with the divine presence. An important aspect of meditation, is that we bring God into our hearts and help Him blossom there, because He's there already. Help that joy and love to blossom from within. As we do so, we will find that we are at home everywhere.

We can bring peace on earth, if we are thinking of peace. LIVE in the consciousness of peace.

I (Kriyananda) do not want to stress the hard times and difficulties ahead, I want to stress Divine Consciousness. It's because of the people who are out of tune with that Divine Consciousness that troubles will come. And the answer therefore, is not to get in tune with troubles, but to get back in tune with the Divine Consciousness.

Only truth wins in the end. Error may go on for a long time, but it can't win in the end.

Have this attitude, "I want to take an active part in doing something for the world. I want to be a warrior for God, and a laborer to bring His Light into the world."
